SUBJ/MANDATORY CORONAVIRUS DISEASE 2019 VACCINATION OF DEPARTMENT OF  
DEFENSE SERVICE MEMBERS//

REF/A/MEMO/OSD/24 AUG 2021//

REF/B/DOC/23 JUL 2019//

NARR/Ref A is the SECDEF Memorandum Mandatory Coronavirus Disease 2019  
Vaccination of Department of Defense Service Members. Ref B is DoD  
Instruction 6205.02, DoD Immunization Program.//

RMKS/1. Disease modeling forecasts that severe acute respiratory  
syndrome coronavirus 2 (SARS-CoV-2), the virus that causes COVID-19,  
will continue to spread throughout the remainder of 2021. Data and  
modeling also indicate that the available vaccines will continue to be  
effective against severe illness and mortality caused by COVID-19. Of  
note, all Navy COVID deaths have been individuals not immunized (one  
individual was partially vaccinated). In consideration of this  
persistent health and readiness threat to Navy Service Members, the  
COVID-19 vaccine is now mandatory per Ref A. In accordance with Ref A  
and Ref B, Navy Service members will be fully vaccinated against  
COVID-19 through administration of vaccines that have received Food  
and Drug Administration (FDA) licensure.
