We are a cash based clinic providing primary care and integrative therapies including diet, nutritional supplements and intravenous nutritional therapies (Vit C, multivitamin/minerals, glutathione, NAD, H2O2, amino acids & B complex IM injections). Kirk Hamilton PA-C (38 years in practice) uses multi-sequenced drug therapy to treat early Covid patients (AAPS & I Mask protocols); encourages patients to set up preventive Covid plans with anti-virals, nutrients and risk factor reduction, as well as equipment and plans to have in place when a Covid infection occurs to make this challenging time less stressful and more effective; and treats post-Covid recovery to normal function with an integrative functional medicine and lifestyle approach. The new patient early acute Covid treatment visit; preventive Covid visit; or post Covid visit are 45-60 minutes and costs \$295. Labs can be ordered through Quest Diagnostics or Lab Corp billed to insurance or paid cash at lab cost. Nutritional supplements can be shipped to patients if desired.

I have been doing Integrated Medicine since 1984. Licensed since 1970. Doing Nutrition, Wellness Care & Non-linear Scanning (BioStar) with bioresonance for health. I do not take patients unless they are willing to get well! No insurance since they 'forbid' helping patients and demand drug care only! Wake up Americans! Your body wants to be healthy & well so why do you stay with doctors employed by insurance to keep you sick for their profit? Come get a scan, find out what is really wrong and how to get your health back on track. All health problems start with an emotional wound or conflict but the discovery will help you be well! Coming to Hawaii? This is a wonderful place to visit, have a scan and learn how to be well in the healing island of Hawaii. Other states where licensed: California

We currently are a medical home - required to be
able to take most insurances - therefore to become a
patient and be seen you need to live within 50 miles
of our office and have an insurance that we can take.
In some cases, we can accept cash payment. We
have CLIA certification/waiver to run rapid (15
minute) COVID-19 tests to see if you are infected
with SARS-CoV2 and if you are ill you would not be
in the main office space until proven to be negative
for COVID-19. We then can do a complete
evaluation and take care you as we normally would
do.

All Covid patients are provided televisits after initial interview and scheduling. COVID testing is not performed in our office but is helpful for treatment guidance and recommended if suspected. Treatment is tailored to age, history and not solely dependent on active symptoms. Prevention of later complication is a critical element of our approach. We also give early supportive care to symptomatic individuals on a case-by-case basis. No insurance accepted as payment though we provide paperwork and online data for filing.
